

## **Bringing Arcade Machines Back From The Dead**

*Michigan Based Arcade Company Brings Arcade Machines Back From The Dead..*

Dearborn, Dec 03, 2011 -- Michigan Classic Arcade was started back in 2010, we felt there was a huge need out there in the Michigan area for someone to provide honest and reliable Arcade Repair Services. Not many people are knowledgeable about how arcade machines work, so when you email in or call us were able to send out someone right away by appointment to come help you fix the problem you may be having and the job gets done right. Michigan Classic Arcade specializes in Midway, Nintendo, Atari games and also Monitor and Power Supply repair. Many people keep their Arcade Games in their garage and they don't realize the cold will hurt them over time and that's where we come in. One minute your game will work fine then the next minute it will completely lock up or just die out on you. That's where Michigan Classic Arcade (Chuck Fitch) comes in. I am a pro. I am very nice to talk to, and I will come out and spend the time needed on your game in order to get it working again. Sometimes I may need to pull something out inside your game and repair it off site, but rest assured I will get the job done.

Our repair service is reasonable and we never remove your game from your residence. Our prices include a 90 day Parts and Labor Warranty on all repairs or sales. If for any reason you have trouble with your game after we had it in for repair, we will still come out at no additional charge to you and diagnose the problem and fix it. Please visit our website for Repair rates for the local Michigan area and also our Mail In Service. Michigan Classic Arcade Thank you and we hope to be bringing your game back from the dead very soon!.
